Curriculum End Points

Year Six

Topic: Why does population change?

- Identify the most densely and sparsely populated areas.
- Describe the increase in global population over time.
- Begin to describe what might influence the environments people live in.
- Define birth and death rates, suggesting what may influence them.
- Define migration, discussing push and pull factors.
- Explain why some people have no choice but to leave their homes.
- Describe the causes of climate change, explaining its impact on the global population.
- Suggest an action they can take to fight climate change.
- Calculate the length of a route to scale.
- Follow a selected route on an OS map.
- Use a variety of data collection methods, including using a Likert scale.
- Collect information from a member of the public.
- Create a digital map to plot and compare data collected from two locations.
- Suggest an idea to improve the environment.
