

Literacy

In Literacy children will learn vocabulary linked to time. We will begin to read and understand RWI books and answer key questions. We will write a simple caption independently and begin to write a basic sentence with adult support related to the Gingerbread Man. We will be able to write a list within a context.

Understanding the World

Children will look at the life of Mae Jemison as part of our diversity enrichment. We will compare different countries around the world, locating on a map and comparing to life in Ellington. We will also learn about Chinese New Year.

Maths

This term we will recognise 2D and 3D shapes and look at pattern, mass, distance and money. Children will begin to learn double and halves using our fingers to support. We will also look at counting one more and one less.

Ellington Primary School **RECEPTION CURRICULUM MAP**

Communication and Language

Children will begin to understand time and sequence concepts such as first, then and next. We will be confident to speak in front of our whole class and describe in detail what we see and know.

Believe and achieve

Physical Development

Children will use threading activities to strengthen their fine motor skills. This will enable us to work on using scissors to cut out by turning the paper and hold a pencil effectively. We will continue working on handwriting families.

Expressive Art & Design

Children will be able to mix primary colours to create secondary colours using powder paints. We will learn about floating and sinking to enable us to create a 3D boat for the Gingerbread Man. We will take on the role of a character in a familiar story and learn a dragon dance.

Personal, Social & Emotional

Children will be able to say why they feel as they do, to know that we learn from our mistakes and to listen and follow instructions carefully. Children will be able to join in with daily routines independently.
