

English

This half term, our reading lessons will be based around the fantastic book 'Matilda' by Roald Dahl. In our writing, we will focus on creating setting descriptions inspired by Anthony Browne's picture book 'The Tunnel', as well as using the fascinating animation 'Once in a Lifetime' to develop engaging informative writing.

Science

We will be finding out about skeletons and movement. We will learn the names and functions of some bones in the human body and we will investigate skeletons in other animals. We will learn about nutrition and diet.

Maths

We will begin the term by working on place value and laying strong foundations for our work in year 3 mathematics. We will also be assessing and developing our times tables skills.

Ellington Primary School

YEAR 3 CURRICULUM MAP

French

We will learn how to introduce ourselves and say how we feel in French, as well as learning about the countries where French is spoken.

Geography

We will be focusing on volcanoes. We will name the layers of the Earth, find out why and where volcanoes occur and we will recognise some of the positive and negative effects of living near to a volcano.

Autumn Term 1

Believe and achieve

Computing

We will focus on basic skills, such as saving and accessing work, and develop our touch typing skills.

Design & Technology

We will be cooking using seasonal fruits and vegetables and learning about their health benefits.

PE

We will be learning and practicing the skills involved in a variety of invasion games.

PSHE

We will be learning about Family and Relationships, thinking about what makes a healthy relationship, friendship, communication and stereotyping.

Music

We will begin our class cornet tuition, learning how to hold the instruments, and learning how to play the first few notes that we will need.

RE

We will be focusing on Christianity. Our learning will be around the enquiry question 'What do Christians learn from the Creation story?'
