

# Ellington Primary School

## School Council Mission Statement

- We want to implement change to make our school even better.
- We hope to create a safe and healthy learning environment.
- We hope to give every pupil in our school a voice.
- We will give full attention and support towards any pupils who have concerns of any kind.
- We constantly set new targets for ourselves and work hard to achieve them.
- We ensure also that all children in school have their voice heard by holding regular class council meetings.
- At our fortnightly meeting, School Council will bring up important issues.
